Hotline - 226-6424

Jan Marutzsky, RN, and Darla Lyons, RN, consult the Epic program at the nurses' station.

Epic has replaced handwritten orders and paper charts with a fully digital medical record. The patient can share the record, through electronic transfer, with other Mercy facilities.

What Is It?	Epic Electronic Health Record System
Year Acquired:	2011
Use:	Epic is the computerized system that doctors, nurses, and clinical coworkers use to build the record of your hospital visit.
	Your medications, treatment plans, allergies, x-ray images, and laboratory and test results are examples of items they enter into your record at the time services are provided. Epic has replaced handwritten orders and paper chart
Features:	The information is password protected. Departments have access only to the information related to their area of responsibility. Epic is also in use at other Mercy facilities.
